

## SPECIFICATION

Range: **RAPID**

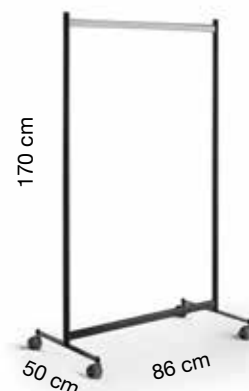

Design: **Caimi Lab**

Codes: **5214-N, 5212-N**

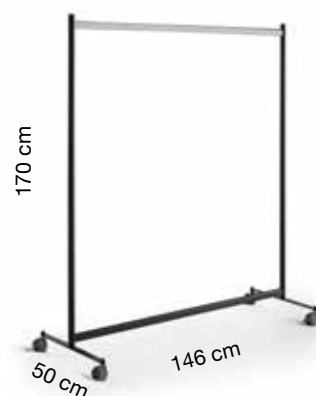

Dimensions: 5214-N lenght 86 cm, depth 50 cm, height 170 cm  
5212-N lenght 146 cm, depth 50 cm, height 170 cm

Description: Coat stander on wheels consisting of a two-post structure and two connecting and stiffening crossbars, one upper and one lower. The lower crossbar is made of epoxy powder-coated tubular steel with a 20 mm x 40 mm semi-oval cross-section. The upper crossbar, which serves as a hanging tube, is made of 20 mm x 40 mm half-oval section chrome-plated tubular steel. Uprights and crossbars are made integral with M8 screws. Bases made of epoxy powder-coated steel equipped with technopolymer wheels, two with brakes and two without.

RAPID coat stander meets the "CAM" Minimum Environmental Criteria.
